SUMMARY

Motivated and ambitious Computer Science student specializing in Artificial Intelligence at Effat University. Possessing strong technical knowledge in software development, mobile applications, artificial intelligence, data analysis, and database systems. Experienced in Flutter development, UI/UX design, Firebase integration, and machine learning projects. Passionate about leveraging technology to create innovative solutions, improve user experiences, and contribute to organizational success while continuously expanding professional and technical expertise.

PROFESSIONAL EXPERIENCE

Software Developer intern December 2025 –
Red Sand Technology Company June 2026

- Designed intuitive user interfaces and user experiences (UI/UX) using Figma.
- Developed cross-platform mobile applications using Flutter.
- Built booking and service management applications for various domains.
- Developed applications for car wash services, salon bookings, and general service management.
- Integrated Firebase Authentication and Firestore databases.
- Designed and implemented the architecture for a WhatsApp chatbot and developed its core functionalities.
- Integrated WhatsApp Business API and chatbot features into applications.
- Tested APIs and application environments using Postman.
- Performed application testing, debugging, and performance optimization.
- Published applications on Google Play Console.
- Assisted with iOS deployment and App Store publishing using Xcode.
- Implemented multilingual support in Arabic and English.
- Developed administrative dashboards and customer management systems.
- Utilized GitHub for version control and collaborative development.

EDUCATION 2022 – 2026

Effat University
Bachelor of Science in Computer Science
Specialization: Artificial Intelligence (AI) **GPA:**
3.65 / 4.00

VOLUNTEER EXPERIENCE

L&T Conference 2025
Event Coordination Support
Assisted in event coordination and logistics management.

Effat University Career Day 2024
Volunteer Assistant
Supported event organization and participant coordination.

Neor Innovation Hub 2024
Volunteer Assistant
Assisted in educational activities and lesson preparation.

Awareness & Guidance Association for New Muslim Communities 2024
Volunteer Assistant

- Participated in educational programs and community outreach activities.
- Assisted in organizing trips to Makkah and Madinah.

Bupa 2022
Volunteer Assistant Jeddah
Supported data management and documentation activities

SKILLS

Programming Languages
- Python
- Java
- JavaScript
- TypeScript
- C++
- C
- SQL
- Assembly

Mobile Development
- Flutter
- Firebase
- Firestore

Databases
- MySQL
- PostgreSQL
- Firebase Database

Web Development
- HTML5
- CSS3
- Bootstrap
- Node.js

Development Tools
- Git & GitHub
- Postman
- Figma
- Google Play Console
- Xcode

Artificial Intelligence & Data Analytics
- Machine Learning
- Scikit-learn
- Data Analysis
- Microsoft Excel
- Excel Functions & Formulas
- Pivot Tables & Charts
- Data Visualization & Dashboards
- Power BI
- Generative AI Applications

Soft Skills
- Leadership
- Problem Solving
- Adaptability
- Decision Making
- Team Collaboration
- Critical Thinking
- Creativity
- Communication Skills
- Time Management
- Attention to Detail

ORGANIZATIONS

23rd International Learning and Technology Conference 2026

Poster Presenter | Effat University

Presented a research poster titled:

"Deepfake Text Detection Systems for Arabic and English Using BERT and ELECTRA-Based Models."

The research focused on detecting AI-generated content using advanced Natural Language Processing (NLP) models for both Arabic and English datasets.

Effat University Undergraduate Research Forum 2024

Research Presenter

Presented research on the application of Virtual Reality (VR) technologies in museums to enhance visitor engagement and educational experiences.

PROJECTS

AI & Data Quality Engineer 2025

CrystalLab – Enterprise Data System for Smart Analytics
- Developed an AI-powered platform for automated data quality assessment and cleansing.
- Implemented techniques to detect missing values, duplicates, outliers, and labeling errors.
- Applied machine learning and statistical methods for intelligent data validation.
- Built a scalable web-based solution using Python, Flask, and machine learning frameworks.
- Designed interactive dashboards and data visualization components.

Web Developer 2023

Animal Trading Cards
- Developed a responsive website using HTML and CSS.
- Enhanced user experience through modern web design principles.
- Ensured code quality, maintainability, and responsiveness.

Database Designer 2022

Udditdit – Social News Aggregator

- Designed and normalized relational database schemas.
- Created and optimized SQL queries and database structures.
- Developed DDL and DML scripts to support application functionality.

CERTIFICATES

- Excel Dashboard for Beginners - Microsoft (2026)
- Business Analytics with Excel - Microsoft (2026)
- Introduction to MS Excel - Microsoft (2026)
- Introduction to Cybersecurity – Cisco Networking Academy (2026)
- Neural Networks and Deep Learning – DeepLearning.AI (2025)
- Cybersecurity Awareness Training – Cedge (2025)
- Workshop Certificate – Effat University (2025)
- Generative AI: Introduction and Applications – Coursera (2024)
- Introduction to Artificial Intelligence (AI) – Coursera (2024)
- Data Analysis and Visualization with Power BI – Microsoft (2024)
- Creative Designing in Power BI – Microsoft (2024)
- The Art of the Job Interview – Coursera (2023)
- Introduction to Cybersecurity Tools & Cyberattacks – Coursera (2023)
- Intro to Web Development – Udacity (2023)
- SQL Nanodegree – Udacity (2022)
- Text Retrieval and Search Engines – Coursera (2022)

LANGUAGES

- **Arabic:** Native
- **English:** Fluent
- **French:** Basic
- **German:** Basic
